

HEALTH FOUNDATION KHYBER PAKHTUNKHWA

EXPRESSIONS OF INTEREST

PROVISION OF HOSPITAL SERVICES AT 58 HEALTH FACILITIES IN KHYBER PAKHTUNKHWA THROUGH PUBLIC-PRIVATE PARTNERSHIP REF NO HF020- 2022-23

1. Health Foundation in Khyber Pakhtunkhwa is mandated to promote and enable the development of innovative health care delivery models in the province. It aims to achieve policy objectives of Government of Khyber Pakhtunkhwa to improve quality and coverage through various means of Public Private Partnership for health care delivery services and matters connected herewith and ancillary thereto.
2. The Government of KP has recently approved its Health Policy, which was proceeded by a Health Sector Strategic Framework. The framework facilitates the implementation of Health Policy by providing a roadmap, to engage private sector in remote areas for improving community's access to quality services. It will also support the department in implementation of the approved health service delivery package at all healthcare levels. By outsourcing some Secondary Healthcare facilities, and focusing on the rest itself, this initiative will have two-fold benefits. One, it will bring private sector efficiency, accountability and management to Health facilities which have been a challenge for the Health Department to improve itself; secondly, it will free up more public sector resources to strengthen Health facilities and areas where Health Department's directly run service delivery is more effective.
